

Rear Rubber Buffer

CamlockTGE manufacture a wide selection of single section ladders in single, intermediate and wide types including triple stile. Thirty five standard ladders are listed in the Product Catalogue in lengths up to 4.0 m long.

The ladders are fitted as standard with rubber buffers on the side and rear faces. Non-standard lengths and widths are available on request.

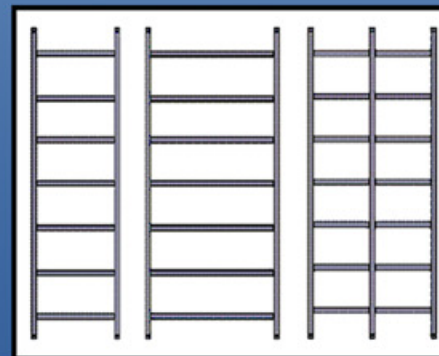

Ladder Cushion Rest

A range of accessories are available for the single section ladder, including foot platforms, stand off platforms, and side steps (see Ladder Accessories).
